

# Community Bushfire Recovery

## Helping Wildlife After Bushfire

You are invited to a  
community information  
meeting with:

**Dr Rupert Baker**  
Senior Veterinarian  
Healesville Sanctuary

**Denise Garrett**  
Wildlife Carer  
Help for Wildlife

Topics covered to generate discussion include:

- Numbers and types of wildlife seen by Healesville Sanctuary and Wildlife Carers after 2009 fires.
- Success of rehabilitation and release of wildlife.
- Feeding of wildlife post fire. The good, the bad, the necessary?
- Habitat needs for wildlife and the impacts wildlife have on regenerating bush.
- When should wildlife be removed and where should I take them or who do I call?
- Can assisting wildlife cause them to become dependant and less likely to survive in the wild?
- Impacts on endangered species.

Join us in this discussion around helping native animals and their habitat after the recent bushfires.

To RSVP (for catering) or for more information contact:  
Emma Campbell on 9294 6391 or
